Please Note: There are additional background requirements for transportation employees which are located in the Transportation Appendix of this handbook.

Time Clocks/Time Cards

All non-certified employees will use the AptaFund Timekeeping clock to record your time worked. You can access the system from the District website on any computer or download the app to use on your personal cell phone. The system records the actual hours and minutes worked. There is no rounding. There is the ability to leave a message for your supervisor within the system to report any explanations for missed time or other instances when you may have worked extra. The information you provide in the system, or on the forms, will assist your supervisor in authorizing your time card, and ensures accurate recordkeeping for the administration office. It is important for all staff members to accurately punch in and out on the computerized time clock.

Please review your time card at the end of a two week pay period and note any corrections or exceptions that need to be addressed with your supervisor. Each employee is responsible for sending their supervisor a message for any corrections or exceptions that are needed to process your time card, such as adding a missed punch, or recording time worked that was not recorded on the system. All messages and corrections are due no later than the Friday afternoon of the two-week period recorded on your time card.

At the beginning of each school year your supervisor will determine your schedule. These hours are your scheduled hours per day. **If you should ever need to work more than your scheduled hours for any reason, get your supervisor's approval before you do it.**

Employee wages are paid every two weeks on Friday, following a two week pay period in which an employee accumulates hours/routes. The school district provides direct deposit, and employees must set up auto deposits into various banks and/or accounts of their choice.

Breaks

Employees who are assigned to work a full day (more than five hours per day) are entitled to a 15-minute break, usually in the morning for most employees, and a 30-minute lunch/dinner period. Breaks that are taken at school can occur while the employee is punched in on the time clock, with the intention that the employee is available to return to work if the need arises. If an employee leaves during his/her break, they

should punch out, as they are not available to perform any duties if they are not here at school. **If you don't take a break in the morning, you cannot add it at lunch time.**

Absences

Please submit a Leave Request in AptaFund for approval by your supervisor as soon as possible in regard to upcoming, planned absences so appropriate arrangements can be made. In the event of sudden illness or emergency, please call your supervisor by 6:30 a.m., or as soon as possible, so a substitute employee can be contacted if necessary.

If the amount of time actually taken off differs from the original amount of requested time off, please notify the Business Office as soon as possible so the correcting adjustments can be made.

YOU cannot determine what might be abusive, the simple act of grabbing a student by the arm when said student is being disruptive would be considered as potentially abusive. You are best advised to refrain from physical contact in all instances involving student discipline.

Individuals who file an application with the school district will be given consideration for employment if they meet or exceed the qualifications set by the board, administration, and State Department of Education for the class or position for which they apply. Harassment and Bullying

Harassment, bullying, and abuse are violations of school district policies, rules, and regulations and, in some cases, may also be a violation of criminal or other laws. The school district has the authority to report students violating this rule to law enforcement officials.

Sexual harassment may include unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature. Harassment or bullying on the basis of age, color, creed, national origin, race, religion, marital status, sex, sexual orientation, gender identity, physical attributes, physical or mental ability or disability, ancestry, political party preference, political belief, socioeconomic status or familial status includes conduct of a verbal or physical nature that is designed to embarrass, distress, agitate, disturb, or trouble persons.

Sexual harassment includes, but is not limited to:

- verbal, physical or written harassment or abuse
- pressure for sexual activity
- repeated remarks to a person with sexual or demeaning implications
- suggesting or demanding sexual involvement, accompanied by implied or explicit threats.

Harassment or bullying based upon factors other than sex includes, but is not limited to:

- verbal, physical or written harassment or abuse
- repeated remarks of a demeaning nature
- implied or explicit threats concerning one's grades, job, etc.
- demeaning jokes, stories, or activities.

The district will promptly and reasonably investigate allegations of harassment. The building principal will be responsible for handling all complaints alleging harassment. Retaliation against a student because the student has filed a harassment complaint or assisted or participated in a harassment investigation or proceeding is prohibited.

Substance Free Workplace

The Bellevue Community School Board expects the school district and its employees to remain substance free. No employee shall unlawfully manufacture, distribute, dispense, possess, use or be under the influence of, in the workplace, any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, or any other controlled substance or alcoholic beverage as defined by federal or state law.

If an employee is convicted of a violation of any criminal drug offense committed in the workplace, the employee shall notify the employee's supervisor of the conviction within five days of the conviction.

The superintendent will make the determination whether to require the employee to undergo substance abuse treatment or to discipline the employee. An employee who violates the terms of this policy may be subject to discipline up to and including termination.

Bellevue Community School District

Associates

Administrative Guidelines

Building principals are the supervisors of the Associates in their building. The principals will determine the Associate's schedule and work assignment. All assignments will directly supply students with needed services. Associates work only on school days when students are present. Any additional time will be specifically determined by the building principal.

Associates will be evaluated every year by the building principal. The evaluation will attempt to identify the Associate's strengths. But any areas of weakness identified in the process will be shared with the Associate. He/She will be given guidance on how to improve, and given appropriate time to make adjustments. If the Associate is given time to improve and the problem area(s) persist, the Associate may be terminated. The guiding principle will be the welfare of the students – all employees need the skills and attitudes that foster positive growth in the students.

If a specific Associate position is eliminated or reduced during the school year, every attempt will be made to re-assign that Associate to an appropriate vacant Associate position in the same building. Full-time Associates will be assigned to full-time positions, which might necessitate the reduction of a part-time position(s). If an appropriate vacant Associate position is not available, an Associate in the building with evaluated deficiencies will be the first reduced. If all Associates have demonstrated adequate evaluated performance, the Associate most recently employed as an Associate in that building will be reduced. Length of employment will be determined beginning with the first day of paid employment as an Associate.

Step 1: Reduced employee will be assigned to a vacant position in the building.

Step 2: If Step 1 is not available, an Associate in the building with evaluated deficiencies will be reduced, and the employee will be transferred to that position.

Step 3: If Step 2 is not available, the Associate most recently employed as an Associate in that building will be reduced, and the employee will be transferred to that position.

Every school year, Administration will evaluate the need for the Associate positions based upon students' needs and academic program needs. If a position(s) must be reduced, those Associates in the building with evaluated deficiencies will be reduced first. If an additional position(s) needs to be reduced, those Associate(s) most recently employed as Associates in that building will be reduced next.

Step A: Associates in the building with evaluated deficiencies are reduced first.

Step B: If Step A does not supply the needed number of reductions, those Associates most recently employed as Associates in the building are reduced as needed.

Associates will be assigned to positions based upon relative qualifications, skills, ability and demonstrated performance. A variety of skills sets are needed in the school; the skills appropriate for a successful preschool Associate are much different than the skills needed for a successful high school Associate. Substantially different skills set can be needed for specific programs, making transfer between buildings and programs an important decision. An Associate may request assignment to a vacant position and will be given consideration in the pool of applicants.
