

ANTI-BULLYING/ANTI-HARASSMENT INVESTIGATION PROCEDURES

The Bellevue Community School District is committed to providing all students with a safe and civil school environment in which all members of the school community are treated with dignity and respect. Bullying and/or harassment of or by students, staff, and volunteers is against federal, state, and local policy and is not tolerated by the board. Bullying and/or harassing behavior can seriously disrupt the ability of school employees to maintain a safe and civil environment, and the ability of students to learn and succeed. Therefore, it is the policy of the state and the school district that school employees, volunteers, and students shall not engage in bullying or harassing behavior in school, on school property, or at any school function or school-sponsored activity.

Definitions

For the purposes of this policy, the defined words shall have the following meaning:

- “Electronic” means any communication involving the transmission of information by wire, radio, optic cable, electromagnetic, or other similar means. “Electronic” includes but is not limited to communication via electronic mail, internet-based communications, pager service, cell phones, and electronic text messaging.
- “Harassment” and “bullying” shall mean any electronic, written, verbal, or physical act or conduct toward a student based on the individual’s actual or perceived age, color, creed, national origin, race, religion, marital status, sex, sexual orientation, gender identity, physical attributes, physical or mental ability or disability, ancestry, political party preference, political belief, socioeconomic status, or familial status, and which creates an objectively hostile school environment that meets one or more of the following conditions:
 - (1) Places the student in reasonable fear of harm to the student’s person or property.
 - (2) Has a substantial detrimental effect on the student’s physical or mental health.
 - (3) Has the effect of substantially interfering with a student’s academic performance.
 - (4) Has the effect of substantially interfering with the student’s ability to participate in or benefit from the services, activities, or privileges provided by a school.
- “Trait or characteristic of the student” includes but is not limited to age, color, creed, national origin, race, religion, marital status, sex, sexual orientation, gender identity, physical attributes, physical or mental ability or disability, ancestry, political party preference, political belief, socioeconomic status, or familial status.
- “Volunteer” means an individual who has regular, significant contact with students.

Filing a Complaint

A Complainant who wishes to avail himself/herself of this procedure may do so by filing a complaint with the superintendent or superintendent’s designee. An alternate will be designated in the event it is claimed that the superintendent or superintendent’s designee committed the alleged discrimination or some other conflict of interest exists. Complaints shall be filed within [state number of days - 180] of the event giving rise to the complaint or from the date the Complainant could reasonably become aware of such occurrence. The Complainant will state the nature of the complaint and the remedy requested. The Complainant shall receive assistance as needed.

ANTI-BULLYING/ANTI-HARASSMENT INVESTIGATION PROCEDURES

School employees, volunteers, and students shall not engage in reprisal, retaliation, or false accusation against a victim, witness, or an individual who has reliable information about an act of bullying or harassment.

Investigation

The school district will promptly and reasonably investigate allegations of bullying or harassment. The [superintendent or the superintendent's designee or name the position if not the superintendent] (hereinafter "Investigator") will be responsible for handling all complaints alleging bullying or harassment.

If the Complainant is under 18 years of age, the Investigator shall notify his or her parent(s)/guardian(s) that they may attend investigatory meetings in which the Complainant is involved. The complaint and identity of the Complainant, Respondent, or witnesses will only be disclosed as reasonably necessary in connection with the investigation or as required by law or policy. The investigation may include, but is not limited to the following:

- A request for the Complainant to provide a written statement regarding the nature of the complaint;
- A request for the individual named in the complaint (hereinafter "Respondent") to provide a written statement;
- A request for witnesses identified during the course of the investigation to provide a written statement; and
- Review and collection of documentation or information deemed relevant to the investigation.

The Investigator shall consider the totality of circumstances presented in determining whether conduct objectively constitutes bullying or harassment. Upon completion of the investigation, the Investigator shall issue a report with respect to the findings.

Additional suggestions for administrative procedures regarding this policy include:

- Organizing training programs for students, school employees, and volunteers regarding how to recognize bullying and harassing behavior and what to do if this behavior is witnessed; and
- Developing a process for evaluating the effectiveness of this policy in reducing bullying and harassing behavior.

Decision

If, after an investigation, a student is found to be in violation of the policy, the student shall be disciplined by appropriate measures, which may include suspension and expulsion. If after an investigation a school employee is found to be in violation of this policy, the employee shall be disciplined by appropriate measures, which may include termination. If after an investigation a school volunteer is found to be in violation of this policy, the volunteer shall be subject to appropriate measures, which may include exclusion from school grounds.

ANTI-BULLYING/ANTI-HARASSMENT INVESTIGATION PROCEDURES

A school employee, volunteer, or student, or a student's parent or guardian who promptly, reasonably, and in good faith reports an incident of bullying or harassment, in compliance with the procedures in the policy adopted pursuant to this section, to the appropriate school official designated by the school district, shall be immune from civil or criminal liability relating to such report and to participation in any administrative or judicial proceeding resulting from or relating to the report.

Individuals who knowingly file false bullying and/or harassment complaints and any person who gives false statements in an investigation may be subject to discipline by appropriate measures, as shall any person who is found to have retaliated against another in violation of this policy. Any student found to have retaliated in violation of this policy shall be subject to measures up to, and including, suspension and expulsion.

Any school employee found to have retaliated in violation of this policy shall be subject to measures up to, and including, termination of employment. Any school volunteer found to have retaliated in violation of this policy shall be subject to measures up to, and including, exclusion from school grounds.

Regulation 104-R(1): Anti-Bullying/Harassment Policy - Investigation Procedures

Status: ADOPTED

Original Adopted Date: 03/08/2022 | Last Reviewed Date: 03/08/2022

Filing a Complaint

An individual who believes that the individual has been harassed or bullied may file a complaint with the superintendent or superintendent's designee. The complaint form is available [link to form on website or designate location such as building office]. An alternate investigator will be designated in the event it is claimed that the superintendent or superintendent's designee committed the alleged bullying or harassment or some other conflict of interest exists. Complaints shall be filed within [state number of days - 180] of the event giving rise to the complaint or from the date the Complainant could reasonably become aware of such occurrence. The Complainant will state the nature of the complaint and the remedy requested. The Complainant shall receive assistance as needed.

Investigation

The school district will promptly and reasonably investigate allegations of bullying or harassment upon receipt of a written complaint. The [superintendent or the superintendent's designee or name the position if not the superintendent] (hereinafter "Investigator") will be responsible for handling all complaints alleging bullying or harassment.

The investigation may include, but is not limited to the following:

- Interviews with the Complainant and the individual named in the complaint ("Respondent")
- A request for the Complainant to provide a written statement regarding the nature of the complaint;
- A request for the Respondent to provide a written statement;
- Interviews with witnesses identified during the course of the investigation;
- A request for witnesses identified during the course of the investigation to provide a written statement; and
- Review and collection of documentation or information deemed relevant to the investigation.

The Investigator shall consider the totality of circumstances presented in determining whether conduct objectively constitutes bullying or harassment as defined in Board policy. Upon completion of the investigation, the Investigator shall issue a report with respect to the findings, and provide a copy of the report to the appropriate building principal or Superintendent if the investigation involved the building principal

The complaint and identity of the Complainant, Respondent, or witnesses will only be disclosed as reasonably necessary in connection with the investigation or as required by law or policy. Similarly, evidence uncovered in the investigation shall be kept confidential to the extent reasonably possible.

Additional suggestions for administrative procedures regarding this policy include:

- Organizing training programs for students, school employees, and volunteers regarding how to recognize bullying and harassing behavior and what to do if this behavior is witnessed; and
- Developing a process for evaluating the effectiveness of this policy in reducing bullying and harassing behavior.

Decision

The investigator, building principal or superintendent, depending on the individuals involved, shall inform the Complainant and the accused about the outcome of the investigation. If, after an investigation, a student is found to be in violation of the policy, the student shall be disciplined by appropriate measures, which may include suspension and expulsion. If after an investigation a school employee is found to be in violation of this policy, the employee shall be disciplined by appropriate measures, which may include termination. If after an investigation a school volunteer is found to be in violation of this policy, the volunteer shall be subject to appropriate measures, which may include exclusion from school grounds.

Individuals who knowingly file false bullying and/or harassment complaints and any person who gives false statements in an investigation may be subject to discipline by appropriate measures, as shall any person who is found to have retaliated against another in violation of this policy. Any student found to have retaliated in violation of this policy shall be subject to measures up to, and including, suspension and expulsion. Any school employee found to have retaliated in violation of this policy shall be subject to measures up to, and including, termination of employment. Any school volunteer found to have retaliated in violation of this policy shall be subject to measures up to, and including, exclusion from school grounds.

NOTE: School districts must include a number of requirements in the district anti-bullying/anti-harassment policy. This regulation builds on the requirements addressed in IASB sample policy 104 by more specifically detailing sample

investigation procedures. Districts should ensure that the district's practice is reflective of the policy and regulations that the district's leadership team has established. Please remember that the procedures outlined here should be consistent with the policy.

NOTE: Some conduct that falls under a school's anti-bullying/anti-harassment policy also may trigger responsibilities under one or more of the federal and state antidiscrimination laws. By limiting the response to a specific application of its anti-bullying/anti-harassment disciplinary policy and the accompanying procedures, a school may fail to properly consider whether the alleged conduct also results in discriminatory bullying and/or harassment.

RESPONSIBILITIES OF THE BOARD OF DIRECTORS

The board is authorized to govern the school district which it oversees. As the governing board of the school district, the board has three duties to perform: legislative duty, executive duty and evaluative duty.

As a representative of the citizens of the school district community, the board is responsible for legislating policy for the school district. As a policy making body, the board has jurisdiction to enact policy with the force and effect of law for the management and operation of the school district.

It is the responsibility of the board, under the board's executive duty, to select its chief executive officer, the superintendent, to operate the school district on the board's behalf. The board delegates to the superintendent its authority to carry out board policy, to formulate and carry out rules and regulations and to handle the administrative details in a manner which supports and is consistent with board policy.

The board has a responsibility to review the education program's performance under its evaluative duty. The board regularly reviews the education program and ancillary services. The review includes a careful study and examination of the facts, conditions and circumstances surrounding the amount of funds received or expended and the education program's ability to achieve the board's educational philosophy for the school district.

Policy 200.03: Responsibilities of the Board of Directors

Status: DRAFT

Original Adopted Date: 12/17/2021

The board is authorized to govern the school district which it oversees. The board is entrusted with public funds and is responsible for overseeing the improvement of student outcomes, including student academic achievement and skill proficiency. As the governing board of the school district, the board has four duties to perform: legislative duty, executive duty, evaluative duty and quasi-judicial duty.

As a representative of the citizens of the school district community, the board is responsible for legislating policy for the school district. As a policy making body, the board has jurisdiction to enact policy with the force and effect of law for the management and operation of the school district.

It is the responsibility of the board, under the board's executive duty, to select its chief executive officer, the superintendent, to operate the school district on the board's behalf. The board delegates to the superintendent its authority to carry out board policy, to formulate and carry out rules and regulations and to handle the administrative details in a manner which supports and is consistent with board policy.

The board has a responsibility to review the education program's performance under its evaluative duty. The board regularly reviews the education program and ancillary services. The review includes a careful study and examination of the facts, conditions and circumstances surrounding the amount of funds received or expended and the education program's ability to achieve the board's educational philosophy and goals for the school district.

The board fulfills its quasi-judicial duties in serving as a neutral arbiter for hearings related to student suspension or expulsion proceedings and certain employment termination hearings and appeals. This important power was granted by the Iowa legislature and cannot be delegated. To preserve the board's neutrality to hear and decide upon these matters, the board does not investigate or become involved in student disciplinary matters or employment matters that may come before it and would require the board to serve in its quasi-judicial role.

SUBSTITUTE TEACHERS

The board recognizes the need for substitute teachers. Substitute teachers shall be licensed to teach in Iowa.

It shall be the responsibility of the building principal to maintain a list of substitute teachers who may be called upon to replace regular contract licensed employees. Individuals whose names do not appear on this list will not be employed as a substitute without specific approval of the superintendent. It shall be the responsibility of the building principal to fill absences with substitute teachers immediately.

Substitute teachers will be paid a per diem rate. Substitutes employed for up to 10 days will be paid \$110 per day. Substitutes employed for 11 - 90 days consecutive days in the same position shall be paid according to \$130 per day. Substitutes employed for more than 90 days in the same position will be paid \$169 per day. Substitute licensed employees are expected to perform the same duties as the licensed employees.

COMPULSORY ATTENDANCE

Parents within the school district who have children over age six and under age sixteen by September 15, in proper physical and mental condition to attend school, shall have the children attend the school district at the attendance center designated by the board. Students shall attend school the number of days school is in session in accordance with the school calendar. Students of compulsory attendance age shall attend school a minimum of 175 days. Students not attending the minimum days must be exempted by this policy as listed below or, for students in grades 7-12, referred to the county attorney or, for students in grades K-6, referred to the Attendance Cooperation process. Exceptions to this policy include children who:

- have completed the requirements for graduation in an accredited school or have obtained a high school equivalency diploma;
- are attending religious services or receiving religious instruction;
- are attending an approved or probationally approved private college preparatory school;
- are attending an accredited nonpublic school; or,
- are receiving competent private instruction.

It is the responsibility of the parent of a child to provide evidence of the child's mental and physical inability to attend school or of the child's qualifications for one of the exceptions listed above.

The principal shall investigate the cause for a student's truancy. If the principal is unable to secure the truant student's attendance, the principal should discuss the next step with the school board. If after school board action, the student is still truant, the principal shall refer the matter over to the county attorney for students in grades 7-12. Truant students who have not yet completed sixth grade will be subject to the Attendance Cooperation Process outlined in the supporting administrative regulation.

The school will participate in mediation if requested by the county attorney. The superintendent shall represent the school district in mediation. The school district will monitor the student's compliance with the mediation agreement and will report violations of the mediation agreement to the county attorney.

Parents within the school district who have children over age six and under age sixteen by September 15, in proper physical and mental condition to attend school, will have the children attend the school district at the attendance center designated by the board. Students will attend school the number of days or hours school is in session in accordance with the school calendar. Students of compulsory attendance age will attend school a minimum of 180 days or 1080 hours. Students not attending the minimum days or hours must be exempted by this policy as listed below or, referred to the county attorney. Exceptions to this policy include children who:

- have completed the requirements for graduation in an accredited school or have obtained a high school equivalency diploma;
- are attending religious services or receiving religious instruction;
- are attending an approved or probationally approved private college preparatory school;
- are attending an accredited nonpublic school;
- are receiving independent private instruction; or,
- are receiving competent private instruction.

It is the responsibility of the parent of a child to provide evidence of the child's mental and physical inability to attend school or of the child's qualifications for one of the exceptions listed above.

The principal will investigate the cause for a student's truancy. If the principal is unable to secure the truant student's attendance, the principal should discuss the next step with the school board. If after school board action, the student is still truant, principal will refer the matter over to the county attorney.

The school will participate in mediation if requested by the county attorney. The superintendent will represent the school district in mediation. The school district will monitor the student's compliance with the mediation agreement and will report violations of the mediation agreement to the county attorney.

Note: This is a mandatory policy. The compulsory attendance law does not require school districts to have a truancy officer.

Legal Reference: Iowa Code §§ 259A; 279.10-.11; ch. 299; 299A.

ENTRANCE - ADMISSIONS

Children in the school district community will be allowed to enroll in the school district's regular education program beginning at age five. The child must be age five on or prior to September 15 to participate in the school district's kindergarten program. The child must be age six on or prior to September 15 to begin the first grade of the education program.

The board shall require evidence of age and residency in the form of a birth certificate or other evidence before the student may enroll in the school district's education program. It shall be within the discretion of the superintendent to determine what is satisfactory evidence for proof of age.

Prior to enrollment, the child must provide the administration with their health and immunization certificate. Failure to provide this information within the time period set by the superintendent shall be reason for suspension, expulsion or denying admission to the student.

NOTE: This policy reflects current Iowa law. Only the state registrar has authority to make a copy of a birth certificate. Districts who utilize online registration platforms should be aware that birth certificates should not be uploaded on the online platform as proof of age, as that creates a copy of the birth certificate. Districts can either view a birth certificate in person then return it to the child's guardian; or utilize a variety of documents including but not limited to a certified statement from a treating medical provider, or an immunization record from the child's treating provider that lists the child's date of birth as sufficient proof of age.

OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A SENDING DISTRICT

The school district will participate in open enrollment as a sending district. As a sending district, the board will allow resident students who meet the requirements to open enroll to another public school district.

Parents requesting open enrollment out of the school district for their student will notify the sending and receiving school district no later than March 1 in the school year proceeding the first year desired for open enrollment. The notice is made on forms provided by the Department of Education. The forms are available at the central administration office.

Parents of children who will begin kindergarten in the school district are exempt from the open enrollment March 1 deadline. Parents of children who will begin kindergarten will file in the same manner set forth above by September 1. Parents who have good cause as defined by law for failing to meet the March 1 deadline may make an open enrollment request by September 1 unless another deadline applies.

The receiving district will approve open enrollment requests according to the timelines established by law. The parents may withdraw the open enrollment request prior to the start of the school year. The receiving district's superintendent will notify the parents and sending school district by mail within five days of the school district's action to approve or deny the open enrollment request.

The board will not approve a student's request to allow the receiving district to enter the school district for the purposes of transportation.

An open enrollment request out of the school district from parents of a special education student is reviewed on a case-by-case basis. The determining factor for approval of such an open enrollment request will be whether the special education program available in the receiving school district is appropriate for the student's needs. The area education agency director of special education serving the receiving district will determine whether the program is appropriate. The special education student will remain in the school district until the final determination is made.

It shall be the responsibility of the superintendent to maintain open enrollment request applications and notice forms. It shall also be the responsibility of the superintendent to develop appropriate office procedures and administrative regulations necessary for open enrollment requests.

OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A RECEIVING DISTRICT

The school district will participate in open enrollment as a receiving district. As a receiving district, the board will allow nonresident students, who meet the legal requirements, to open enroll into the school district. The board shall have complete discretion to determine the attendance center of the students attending the school district under open enrollment.

The superintendent will approve timely filed applications by June 1; incoming kindergarten applications; good cause application; or continuation of an educational program application filed by the third Thursday of the following September 1.

The superintendent will notify the sending school district and parents within five days of the school district's action to approve or deny the open enrollment request. The superintendent will also forward a copy of the school district's action with a copy of the open enrollment request to the Iowa Department of Education.

Open enrollment requests into the school district will not be approved if insufficient classroom space exists. Open enrollment requests into the school district will also not be approved for students who have been suspended or expelled by the administration or the board of the school district the student is or was attending until the student has been reinstated into the school district from which the student was suspended or expelled. Once the student is reinstated, the student's open enrollment request will be considered in the same manner as other open enrollment requests provided the required timelines are met.

Open enrollment requests into the school district that, if denied, would result in students from the same nuclear family being enrolled in different school districts, will be given highest priority. The board, in its discretion, may waive the insufficient classroom space reason for denial for students of the same nuclear family to prevent the division of a nuclear family between two school districts. Other open enrollment requests into the school district are considered in the order received by the school district with the first open enrollment request given a higher priority than the second open enrollment request and so forth.

Generally, students in grades nine through twelve open enrolling into the school district will not be eligible for participation in interscholastic athletics, at the varsity level, during the first ninety days of open enrollment into the school district.

Parents of students whose open enrollment requests are approved by the superintendent shall be responsible for providing transportation to and from the receiving school district without reimbursement. The board will not approve transportation into the sending district.

The superintendent will notify the sending school district and parents within five days of the school district's action to approve or deny the open enrollment request.

Open enrollment requests into the school district will not be approved if insufficient classroom space exists. Open enrollment requests into the school district will also not be approved for students who have been suspended or expelled by the administration or the board of the school district the student is or was attending until the student has been reinstated into the school district from which the student was suspended or expelled. Once the student is reinstated, the student's open enrollment request will be considered in the same manner as other open enrollment requests provided the required timelines are met.

Open enrollment requests into the school district that, if denied, would result in students from the same nuclear family being enrolled in different school districts, will be given highest priority. The board, in its discretion, may waive the insufficient classroom space reason for denial for students of the same nuclear family to prevent the division of a nuclear family between two school districts. Other open enrollment requests into the school district are considered in the order received by the school district with the first open enrollment request given a higher priority than the second open enrollment request and so forth.

Students in grades nine through twelve open enrolling into the school district will be eligible for participation in interscholastic athletics, at the varsity level, in accordance with applicable law.

Parents of students whose open enrollment requests are approved by the (board or superintendent) are responsible for providing transportation to and from the receiving school district without reimbursement. The board will not approve transportation into the sending district.]

An open enrollment request into the school district from parents of a special education student is reviewed on a case-by-case basis. The determining factors for approval of such an open enrollment request will be whether the special education program available in the school district is appropriate for the student's needs and whether the enrollment of the special education student will cause the class size to exceed the maximum allowed. The area education agency director of special education serving the school district will determine whether the program is appropriate. The special education student will remain in the sending district until the final determination is made. For children requiring special education, the receiving district will complete and provide to the resident district the documentation needed to seek Medicaid reimbursement for eligible services.

The policies of the school district will apply to students attending the school district under open enrollment.

It is the responsibility of the superintendent to develop appropriate office procedures and administrative regulations necessary for open enrollment requests.

STUDENT EXPRESSION AND STUDENT PULICATIONS

Student Expression

It is the goal of the district to protect the educational environment for all students to help ensure it is free from substantial disruption or infringement upon their rights. Student expression should be appropriate to help ensure that the students learn and meet the goals of the school activity and that the potential audience is not exposed to material that may be harmful or inappropriate for their level of maturity.

While students will generally be allowed to express their viewpoints and opinions, in certain qualifying circumstances, student speech may require administrative regulation to help ensure the safety and welfare of the school community. The district may regulate speech that: causes or is reasonably anticipated to cause a material and substantial disruption to the education environment; infringes upon the rights of others; is obscene or lewd; is school sponsored; and/or promotes illegal activity. The administration, when making this judgment, will consider whether the activity in which the expression was made is school-sponsored and whether review or prohibition of the students' speech furthers an educational purpose. The expression must be done in a reasonable time, place, and manner that is not disruptive to the orderly and efficient operation of the school district.

The superintendent may develop procedures for safely addressing qualifying types of mass protests by students, including walk-ins and walk-outs. Walk-ins occur when students leave their learning environments during school hours and gather in a group or groups with the purpose of promoting a belief or beliefs. Walk-outs occur when students leave their learning environments during school hours and gather in a group or groups off district property with the purpose of promoting a belief or beliefs.

The superintendent is encouraged to obtain feedback from community stakeholders in the development of these procedures. The goal of the procedures shall be to address student safety, maintain the education environment and promote communication during demonstrations while remaining viewpoint neutral.

Students who violate this policy may be subject to disciplinary measures. Employees are responsible for helping to insure students' expression is in keeping with this policy. It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

Student Publications

Students may produce official school publications as part of the curriculum under the supervision of a faculty advisor and the principal. Official school publications include material produced in journalism, newspaper, yearbook, or writing classes and distributed to the student body either free or for a fee.

Any expression made by students, including student expression in official school publications, is not an expression of official school policy. The school district, the board, and the employees or officials are not liable in any civil or criminal action for any student expression made or published by students unless the employees or officials have interfered with or altered the content of the student speech or expression. The liability, if any, is only to the extent of the interference or alteration of the speech or expression.

STUDENT EXPRESSION AND STUDENT PULICATIONS

Official school publications are free from prior restraint by employees or officials except as provided by law. A faculty advisor will supervise student writers to maintain professional standards of English and journalism and to comply with the law including, but not limited to, the restrictions against unlawful speech. The production of official school publications is guided by the law and by the ethical standards adopted by professional associations or societies of journalism.

Persons, other than students, who believe they have been aggrieved by student expression in a student-produced official school publication will follow the grievance procedure outlined in board policy 213.1. Students who believe their freedom of expression in a student-produced official school publication has been restricted will follow the grievance procedure outlined in board policy 502.4.

The superintendent is responsible for developing a student publications code. This code will include, but not be limited to, reasonable rules including time, place, and manner of restrictions. The superintendent will also be responsible for distributing this policy and the student publications code to the students and their parents.

STUDENT COMPLAINTS AND GRIEVANCES

Creating an environment where students feel comfortable addressing their concerns in a meaningful manner is vital to the learning process. It is the goal of the board to resolve student complaints at the lowest organizational level. Student complaints and grievances regarding board policy or administrative regulations, or other matters should first be addressed to the student's teacher or another licensed employee, other than the administration, for resolution of the complaint.

If the complaint cannot be resolved by a student's teacher or other licensed employee, the student may discuss the matter with the principal within 10 days of the employee's decision. If the matter cannot be resolved by the principal, the student may discuss it with the superintendent within 10 days after speaking with the principal.

If the matter is not satisfactorily resolved by the superintendent, the student may ask to have the matter placed on the board agenda of a regularly scheduled board meeting in compliance with board policy. The board retains discretion as to whether to consider or take action on any complaint.

SEARCH AND SEIZURE

School district property is held in public trust by the board. School district authorities may, without a search warrant, search students or protected student areas based on a reasonable and articulable suspicion that a school district policy, rule, regulation or law has been violated. The search shall be in a manner reasonable in scope to maintain order and discipline in the schools, promote the educational environment, and protect the safety and welfare of students, employees and visitors to the school district facilities. The furnishing of a locker, desk or other facility or space owned by the school and provided as a courtesy to a student, even if the student provides the lock for it, shall not create a protected student area and shall not give rise to an expectation of privacy with respect the locker, desk, or other facility.

School authorities may seize any illegal, unauthorized or contraband materials discovered in the search. Items of contraband may include, but are not limited to, nonprescription controlled substances, marijuana, cocaine, amphetamines, barbiturates, apparatus used for controlled substances, alcoholic beverages, tobacco, weapons, explosives, poisons and stolen property. Such items are not to be possessed by a student while they are on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered buses; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district. Possession of such items will be grounds for disciplinary action including suspension or expulsion and may be reported to local law enforcement officials. The board believes that illegal, unauthorized or contraband materials may cause material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees, or visitors on the school district premises or property within the jurisdiction of the school district.

It shall be the responsibility of the superintendent, in conjunction with the principals, to develop administrative regulations regarding this policy.

STUDENT PROGRESS REPORTS AND CONFERENCES

Students shall receive a progress report at the end of each nine-week grading period. Students, who are doing poorly, and their parents, shall be notified prior to the end of the semester in order to have an opportunity to improve their grade. The board encourages the notification of students who have made marked improvement prior to the end of the semester.

Parent-teacher conferences will be held twice a year at the elementary, middle and high school to keep the parents informed. The conferences at the middle and high school are not individually scheduled.

Parents, teachers, or principals may request a conference for students in grades kindergarten through twelve in addition to the scheduled conference time. Parents and students are encouraged to discuss the student's progress or other matters with the student's teacher.

STUDENT PROMOTION - RETENTION - ACCELERATION

Students will be promoted to the next grade level at the end of each school year based on the student's achievement, age, maturity, emotional stability, and social adjustment.

The district shall adhere to the following:

- **Retention/Promotion in kindergarten – eighth grade:** The retention of a student will be determined based upon the judgment of the district's professional staff. When it becomes evident a student in grades kindergarten through eight may be retained in a grade level for an additional year, the parents will be informed prior to making the retention decision. It is within the sole discretion of the district to retain students in their current grade level and to deny promotion to a student.
- **Retention/Promotion in ninth – twelfth grade:** Students in grades nine through twelve will be informed of the required course work necessary to be promoted each year. When it becomes evident a student in these grades will be unable to meet the minimum credit requirements for the year, the student and parents will be informed. It is within the sole discretion of the district to retain students in their current grade level and to deny promotion to a student.
- **Acceleration in kindergarten – twelfth grade:** Students in grades kindergarten through twelve with exceptional talents may, with the permission of the principal and parents, take classes beyond their current grade level. Enrichment opportunities outside the school district may be allowed when they do not conflict with the school district's graduation requirements.
- **Retention or Acceleration in kindergarten – twelfth grade** may also occur in additional instances as provided by law.

Any student or parent who is not satisfied with the decision of the district's professional staff may seek recourse through policy 502.4 – *Student Complaints and Grievances*.

It is within the sole discretion of the district to retain students in their current grade level and to deny promotion to a student.
- Acceleration in kindergarten – twelfth grade: Students in grades kindergarten through twelve with exceptional talents may, with the permission of the principal and parents, take classes beyond their current grade level. Enrichment opportunities outside the school district may be allowed when they do not conflict with the school district's graduation requirements.
- Retention or Acceleration in kindergarten – twelfth grade may also occur in additional instances as provided by law.

Any student or parent who is not satisfied with the decision of the district's professional staff may seek recourse through policy 502.4 – Student Complaints and Grievances.

NOTE: School districts that use specific steps or processes for determining retention or acceleration should reference the applicable criteria or where to locate the criteria in the bulleted information above.

PARENTAL INVOLVEMENT

Parent and family engagement is an important component in a student's success in school. The board encourages parents and families to become involved in their child's education to ensure the child's academic success. The board will:

- (1) Involve parents and families in the development of the Title I plan, the process for school review of the plan and the process for improvement;
- (2) Provide the coordination, technical assistance and other support necessary to assist and build the capacity of all participating schools in planning and implementing effective parent and family involvement activities to improve student academic achievement and school performance;
- (3) To the extent feasible, coordinate and integrate parent and family engagement strategies under Title I with parent and family engagement strategies outlined in other relevant Federal, State, and local laws and programs;
- (4) Conduct with the involvement of parents and family members, an annual evaluation of the content and effectiveness of the parent and family engagement policy in improving the academic quality of the school served including identifying barriers to greater participation by parents in Title I activities (with particular attention to low-income parents, Limited English Proficient (LEP) parents, parents of any racial or ethnic minority, parents with disabilities and parents with limited literacy);
- (5) Use the findings of the annual evaluation to design strategies for more effective parent and family involvement and to revise, as necessary, the parent-and family involvement policies; and;
- (6) Involve parents and families in Title I activities.

Parental involvement is encouraged through the School Improvement Advisory Council, Title I parent meetings, PTA meetings, and similar school-sponsored events.

The board will review this policy annually. The superintendent is responsible for notifying parents and families of this policy annually or within a reasonable time after it has been amended during the school year. The superintendent may develop an administrative process or procedures to implement this policy.

(Formerly Parental Involvement)**

Status: ADOPTED

Original Adopted Date: 03/10/2022 | Last Reviewed Date: 03/10/2022

Parent and family engagement is an important component in a student's success in school. The board encourages parents and families to become involved in their child's education to ensure the child's academic success. In order to facilitate parent and family involvement, it is the goal of the district to conduct outreach and implement programs, activities and procedures to further involve parents and families with the academic success of their students. The board will:

(In each of the following six items, the board must describe within this policy how it will accomplish each of the items. This mandatory policy is not complete without providing specific information for each of these six categories.)

(1) Involve parents and families in the development of the Title I plan, the process for school review of the plan and the process for improvement through *annual meetings*

(2) Provide the coordination, technical assistance and other support necessary to assist and build the capacity of all participating schools in planning and implementing effective parent and family involvement activities to improve student academic achievement and school performance through *parent newsletters, parent-teacher conferences, parent-student orientations, and similar steps to provide parent input.*

(3) To the extent feasible, coordinate and integrate parent and family engagement strategies under Title I with parent and family engagement strategies outlined in other relevant Federal, State, and local laws and programs by *having parent-student meetings.*

(4) Conduct with the involvement of parents and family members, an annual evaluation of the content and effectiveness of the parent and family engagement policy in improving the academic quality of the school served including identifying barriers to greater participation by parents in Title I activities (with particular attention to low-income parents, Limited English Proficient (LEP) parents, parents of any racial or ethnic minority, parents with disabilities and parents with limited literacy); needs of parents and family to assist their children's learning; and strategies to support successful school and family interactions by: *weekly newsletters, parent organizations, surveys, and similar events.*

(5) Use the findings of the annual evaluation to design strategies for more effective parent and family involvement and to revise, as necessary, the parent and family involvement policies by: *conducting annual surveys and adjusting practices accordingly.*

(6) Involve parents and families in Title I activities by special events at school, and promoting their attendance and involvement in activities through *classroom teachers, weekly newsletters, and similar actions.*

The district shall involve parents in determining how to allocate reserved Title I funds in accordance with applicable laws.

The board will review this policy annually. The superintendent is responsible for notifying parents and families of this policy annually or within a reasonable time after it has been amended during the school year. The superintendent may develop an administrative process or procedures to implement this policy.

NOTE: This is a mandatory policy and accompanying regulation. The intent of this portion of Every Student Succeeds Act is that districts will uniquely tailor this policy in a manner and format that suits the needs of their individual community. As a result, there are underlined spaces within this policy that indicate areas where the district should add their own plans after having taken the steps to collaborate with parents and families. This policy is not complete without the necessary description of how each district intends to implement the policy.

Regulation 505.10-R(1): Parent and Family Engagement District-Wide Policy (Formerly Parental Involvement) - Building-Level Regulation

Status: ADOPTED

Original Adopted Date: 03/10/2022 | Last Reviewed Date: 03/10/2022

To further the interests of student achievement, the superintendent will create necessary rules to engage parents and family members within the district in the following ways on a building-level basis:

1. **Policy Involvement:** The district will host an annual meeting and invite all parents to attend; and inform parents of their rights and the district's requirements under Title I. This meeting will also invite parents to become involved in the planning, review and improvement of a building policy and in developing the district plan. The district will inform parents of:
 - programs under this policy,
 - curriculum and assessment used for students,
 - the opportunity to meet with administration to participate in decisions related to their children's education,
 - a description and explanation of curriculum used in the school forms of academic assessment used to measure student progress, and
 - achievement levels of the challenging State academic standards.
2. **Accessibility:** Provide opportunities for informed participation of parents and family members in understandable formats and languages. This includes participation by parents and family members who may have disabilities, limited English proficiency, and migratory children. Offer a flexible number of meetings during the day, evening and weekends to facilitate parent involvement. The superintendent has discretion to allow schools to provide childcare for families of students during these meetings through Title I funds.
3. **High Student Academic Achievement:** Each school in the district will jointly develop with parents and family members a school-parent compact that outlines how parents, staff and students share responsibility for improving student academic achievement; and how a partnership will be built to achieve this. The compact will describe the responsibility of the school to provide high quality curriculum and instruction, and the parents' responsibility to support their children's learning. This will also address the importance of communication between schools and parents through parent teacher conferences, regular reports to parents on their children's progress, and ensuring regular meaningful communication between family and school staff.
4. **Building Capacity for Involvement:** Each school within the district will include in their plan ways to achieve the following:
 - Assist parents and families to understand topics including academic standards and assessments and how to monitor student progress;
 - Provide materials and training to help parents work with students to improve achievement;
 - Educate teachers and staff in how to communicate with parents and build ties to foster academic success;
 - Coordinate and integrate other federal, state and local programs to support parents in more fully participating in students' education;
 - Ensure information related to programs is sent to parents and families in understandable formats; and
 - Provide other reasonable support to encourage parental involvement
5. **Schools Operating a Schoolwide Program:** Each school operating a schoolwide program under this policy shall:
 - Involve parents on a timely and ongoing basis in the planning, review and improvement of programs, including the parent and family engagement school policy drafting and review, and the joint development of the schoolwide program.

- If the schoolwide program plan is not satisfactory to the parents of the participating children, parent comments will be requested and submitted with the plan to the district.
-

STUDENT SPECIAL HEALTH SERVICES

SCHOOL NUTRITION PROGRAM

The school district will operate a school nutrition program in each attendance center. The school nutrition program will include meals through participation in the National School Lunch Program. Students may bring their lunches from home and purchase milk and other incidental items.

School nutrition program facilities are provided to serve students and employees when school is in session and during school-related activities. They may also be used under the supervision of the Nutrition Director for food service to employee groups, parent-teacher meetings, civic organizations meeting for the purpose of better understanding the schools, and senior citizens in accordance with law and board policy.

The school nutrition program is operated on a nonprofit basis. The revenues of the school nutrition program will be used only for the operation or improvement of such programs. Supplies of the school nutrition program will only be used for the school nutrition program.

The board will set, and annually review, the prices for school nutrition programs. It is the responsibility of the superintendent to make a recommendation regarding the prices of the school nutrition programs, in accordance with federal and state law.

It is the responsibility of Nutrition Director to administer the program and to cooperate with the superintendent and appropriate personnel for the proper functioning of the school nutrition program.

The district shall comply with all federal and state laws and regulations required for procurement, including the selection and evaluation of contractors. The superintendent or designee is responsible for developing an administrative process to implement this policy, including, but not limited to, procedures related to suspension and debarment for transactions subject to those requirements.

USDA Child Nutrition Programs in Iowa

Procedures for Handling a Civil Rights Complaint

1. Civil rights complaints related to the National School Lunch Program, School Breakfast Program, Afterschool Care Snack Program, Summer Food Service Program, Seamless Summer Option, or Child and Adult Care Food Program are written or verbal allegations of discrimination based on USDA protected classes of race, color, national origin, sex, age, and disability.
2. Any person claiming discrimination has a right to file a complaint within 180 days of the alleged discrimination. See below for additional Iowa Civil Rights information. A civil rights complaint based on the protected classes listed in #1 above must be forwarded to the address on the nondiscrimination statement.
3. All complaints, whether written or verbal, must be accepted by the School Food Authority (SFA)/Sponsor/Organization and forwarded to USDA at the address or link on the nondiscrimination statement within 5 calendar days of receipt. An anonymous complaint should be handled the same way as any other. Complaint forms may be developed, but their use cannot be required. If the complainant makes the allegations verbally or in a telephone conversation and is reluctant or refuses to put them in writing, the person who handles the complaint must document the description of the complaint.
4. There must be enough information to identify the agency or individual toward which the complaint is directed and indicate the possibility of a violation. Every effort should be made to obtain at least the following information:
 - Name, address and telephone number or other means of contacting the complainant;
 - The specific location and name of the organization delivering the program service or benefit;
 - The nature of the incident(s) or action(s) that led the complainant to feel there was discrimination;
 - The basis on which the complainant feels discrimination occurred (race, color, national origin, sex, age, or disability);
 - The names, titles, and addresses of people who may have knowledge of the discriminatory action(s); and
 - The date(s) when the alleged discriminatory action(s) occurred or, if continuing, the duration of such action(s).
5. USDA is the cognizant agency for the Child Nutrition Programs listed and therefore is the first contact for the six protected classes listed in #1 above, for complaints received within 180 days. Civil rights complaints must be submitted to the USDA Office of Civil Rights within five calendar days of receipt and no later than 180 days of the discriminatory act. The link for submission of a complaint is: program.intake@usda.gov
6. In Iowa, protected classes also include sexual orientation, gender identity, religion or creed and complaints can be filed up to 300 days of occurrence. The address for Iowa complaints is: Iowa Civil Rights Commission, Grimes State Office building, 400 E. 14th St. Des Moines, IA 50319-1004; phone number 515-281-4121, 800-457-4416; website: <https://icrc.iowa.gov/>.

CAPITAL ASSETS

The school district will establish and maintain a capital assets management system for reporting capitalized assets owned or under the jurisdiction of the school district in its financial reports in accordance with generally accepted accounting principles (GAAP) as required or modified by law; to improve the school district's oversight of capital assets by assigning and recording them to specific facilities and programs and to provide for proof of loss of capital assets for insurance purposes.

Capital assets, including tangible and intangible assets, are reported in the government-wide financial statements (i.e. governmental activities and business type activities) and the proprietary fund financial statements. Capital assets reported include school district buildings and sites, construction in progress, improvements other than buildings and sites, land and machinery and equipment. Capital assets reported in the financial reports will include individual capital assets with an historical cost equal to or greater than \$5,000. The Federal regulations governing school lunch programs require capital assets attributable to the school lunch program with a historical cost of equal to or greater than \$500 be capitalized. Additionally, capital assets are depreciated over the useful life of each capital asset.

All intangible assets with a purchase price equal to or greater than \$25,000 with useful life of two or more years, are included in the intangible asset inventory for capitalization purposes. Such assets are recorded at actual historical cost and amortized over the designated useful lifetime applying a straight-line method of depreciation. If there are no legal, contractual, regulatory, technological or other factors that limit the useful life of the asset, then the intangible asset needs to be considered to have an indefinite useful life and no amortization should be recorded.

Phase III districts, as determined under GASB 34, will not retroactively report intangible assets. If actual historical cost cannot be determined for intangible assets due to lack of sufficient records, estimated historical cost will be used.

This policy applies to all intangible assets. If an intangible asset that meets the threshold criteria is fully amortized, the asset must be reported at the historical cost and the applicable accumulated amortization must also be reported. It is not appropriate to "net" the capital asset and amortization to avoid reporting. For internally generated intangible assets, outlays incurred by the government's personnel, or by a third-party contractor on behalf of the government, and for development of internally generated intangible assets should be capitalized.

The capital assets management system must be updated monthly to account for the addition/acquisition, disposal, relocation/transfer of capital assets. It is the responsibility of the superintendent to count and reconcile the capital assets with capital assets management system on June 30 each year.

It is the responsibility of the superintendent to develop administrative regulations implementing this policy. It will also be the responsibility of the superintendent to educate employees about this policy and its supporting administrative regulations.

Policy 802.04: Capital Assets

Status: DRAFT

Original Adopted Date: 03/10/2022 | Last Reviewed Date: 03/10/2022

Capital assets, including tangible and intangible assets, are reported in the government-wide financial statements (i.e. governmental activities and business type activities) and the proprietary fund financial statements. Capital assets reported include school district buildings and sites, construction in progress, improvements other than buildings and sites, land and machinery and equipment. Capital assets reported in the financial reports will include individual capital assets with an historical cost equal to or greater than **(\$5000)**. The Federal regulations governing school lunch programs require capital assets attributable to the school lunch program with a historical cost of equal to or greater than \$500 be capitalized. Additionally, capital assets are depreciated over the useful life of each capital asset.

All intangible assets with a purchase price equal to or greater than **(\$25,000)** with useful life of two or more years, are included in the intangible asset inventory for capitalization purposes. Such assets are recorded at actual historical cost and amortized over the designated useful lifetime applying a straight-line method of depreciation. If there are no legal, contractual, regulatory, technological or other factors that limit the useful life of the asset, then the intangible asset needs to be considered to have an indefinite useful life and no amortization should be recorded.

This policy applies to all intangible assets. If an intangible asset that meets the threshold criteria is fully amortized, the asset must be reported at the historical cost and the applicable accumulated amortization must also be reported. It is not appropriate to "net" the capital asset and amortization to avoid reporting. For internally generated intangible assets, outlays incurred by the government's personnel, or by a third-party contractor on behalf of the government, and for development of internally generated intangible assets should be capitalized.

The capital assets management system must be updated monthly to account for the addition/acquisition, disposal, relocation/transfer of capital assets. It is the responsibility of the superintendent to count and reconcile the capital assets with capital assets management system on June 30 each year.

It is the responsibility of the superintendent to develop administrative regulations implementing this policy. It will also be the responsibility of the superintendent to educate employees about this policy and its supporting administrative regulations.

NOTE: This is a mandatory policy. It is suggested the board consider a capitalization threshold consistent with the GASB 34 Committee Recommendations which recommended "districts and AEAs implement capitalization levels that would capture at least 80% of the value of assets. However, the threshold should not be greater than \$5,000." In addition, Boards may wish to establish guidelines at lower thresholds for keeping track of capital assets for internal control and insurance purposes.

In determining the capital asset capitalization threshold, the size of the school district, the property insurance deductible and the time and effort necessary to account for and track capital assets with a lesser value should be considered. It is strongly recommended the board consult with the school auditor prior to setting the capitalization threshold.

An intangible asset should be recognized in the statement of net assets only if it is identifiable which means the asset is either separable or, arose from contractual or other legal rights, regardless of whether those rights are transferable or separable. The intangible asset must also possess all of the following characteristics/criteria:

- lack of physical substance;
- be of a nonfinancial nature (not in monetary form like cash or investment securities); and,
- the initial useful life extending beyond a single reporting period.

Examples of intangible assets include easements, land use rights, patents, trademarks and copyrights. In addition, intangible assets include computer software purchased, licensed or internally generated, including websites, as well as outlays associated with an internally generated modification of computer software. Intangible assets can be purchased or licensed, acquired through nonexchange transactions or internally generated. Intangible assets exclude assets acquired or created primarily for purposes of directly obtaining income, assets from capital lease transactions reported by lessees, and goodwill created through the combination of a government and another entity.

A school district could, and many do, use bar code identification tags to control capital assets, such as VCRs, technology equipment, etc., even though these capital assets have a cost below the capitalization threshold. In tracking these capital assets only the information necessary to control the location and use of them needs to be maintained. Some school districts video-tape each classroom/office annually to save time and effort tracking capital assets below the capitalization threshold. The video tape is also helpful for insurance claims. Whether a school district chooses to track capital assets with a cost below the capitalization threshold or not, capital assets with a cost below the capitalization threshold should not be included in the capital assets listing for reporting purposes.

This policy provides for valuing capital assets at historical cost as required by GAAP. This policy bases the capitalization threshold on the historical/acquisition cost of the individual asset. The school district can choose to use the historical cost of all the items included in a purchase order as the basis for determining whether to capitalize the capital asset. The cost of improvements may be added to the historical cost of a capital asset. Deciding whether to add the costs of an improvement to a capital asset's historical cost is a judgment call which should be made after consulting with the school auditor.

SPECIAL EDUCATION

The board recognizes some students have different educational needs than other students. The board shall provide a free appropriate public education program and related services to students identified in need of special education. The special education services will be provided from birth until the appropriate education is completed, age twenty-one or to maximum age allowable in accordance with the law. Students requiring special education shall attend general education classes, participate in nonacademic and extracurricular services and activities and receive services in a general education setting to the maximum extent appropriate to the needs of each individual student. The appropriate education for each student shall be written in the student's Individualized Education Program (IEP).

Special education students shall be required to meet the requirements stated in board policy or in their IEPs for graduation. It shall be the responsibility of the superintendent and the area education agency director of special education to provide or make provisions for appropriate special education and related services.

Children from birth through age 2 and children age 3 through age 5 shall be provided comprehensive special education services within the public education system. The school district shall work in conjunction with the area education agency to provide services, at the earliest appropriate time, to children with disabilities from birth through age 2. This shall be done to ensure a smooth transition of children entitled to early childhood special education services.

PHYSICAL EDUCATION

Students in grades one through twelve shall be required to participate in physical education courses unless they are excused by the principal of their attendance center.

Students may be excused from physical education courses if the student presents a written statement from a doctor stating that such activities could be injurious to the health of the student or the student has been exempted because of a conflict with the student's religious beliefs.

Students in grades 9-12 may also be excused from physical education courses if the student is enrolled in academic courses not otherwise available.

Twelfth grade students may also be excused from physical education courses if the student is enrolled in a cooperative, work study or other educational program authorized by the school which requires the student's absence from school.

Students who will not participate in physical education must have a written request or statement from their parents.

PRIVATE INSTRUCTION

The Bellevue Community School District recognizes that families with students of compulsory attendance age may select alternative forms of education outside the traditional school setting, including private instruction. The applicable legal requirements for private instruction, including, but not limited to those relating to reporting and evaluations for progress, shall be followed.

Except as otherwise exempted, in the event a child of compulsory attendance age as defined by law does not attend public school or an accredited nonpublic school, the child must receive private instruction. Private instruction means instruction using a plan and a course of study in a setting other than a public or organized accredited nonpublic school.

Private instruction can take the form of competent private instruction and independent private instruction. The Iowa Department of Education recognizes three options for delivery of this form of instruction: two options for delivery of competent private instruction and one option for independent private instruction.

Competent private instruction means private instruction provided on a daily basis for at least one hundred forty-eight days during a school year, to be met by attendance for at least thirty-seven days each school quarter, which results in the student making adequate progress. Competent private instruction is provided by or under the supervision of a licensed practitioner or by other individuals identified in law.

Independent private instruction means instruction that meets the following criteria: (i) is not accredited, (ii) enrolls not more than four unrelated students, (iii) does not charge tuition, fees, or other remuneration for instruction, (iv) provides private or religious-based instruction as its primary purpose, (v) provides enrolled students with instruction in mathematics, reading and language arts, science, and social studies, (vi) provides, upon written request from the superintendent of the school district in which the independent private instruction is provided, or from the director of the department of education, a report identifying the primary instructor, location, name of the authority responsible for the independent private instruction, and the names of the students enrolled, (vii) is not a nonpublic school and does not provide competent private instruction as defined herein, and (viii) is exempt from all state statutes and administrative rules applicable to a school, a school board, or a school district, except as otherwise provided by law.

It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

INSTRUCTION AT A POST-SECONDARY EDUCATIONAL INSTITUTION

Students in grades nine through twelve may receive academic or vocational-technical credits that count toward the graduation requirements set out by the board for courses successfully completed in post-secondary educational institutions. The student may receive academic or vocational-technical credits through an agreement between a post-secondary educational institution or with the board's approval on a case-by-case basis.

Students in grades nine through twelve who successfully complete courses in post-secondary educational institutions under an agreement between the school district and the post-secondary educational institution shall receive academic and vocational-technical credits in accordance with the agreement.

Students in grades eleven and twelve may enroll in a post-secondary educational institution for academic or vocational-technical credits with the board's approval on a case-by-case basis. Students who intend to enroll in a post-secondary educational institution shall notify the school district during the course scheduling process prior to each semester. Students may attend courses at a post-secondary educational institution only after the school district certifies that the student is eligible to attend under this policy.

Students in grades eleven and twelve who are not enrolled full-time in the school district shall receive academic or vocational-technical credit toward the graduation requirements set out by the board for successful completion of courses at a post-secondary educational institution. Successful completion of the course shall be determined by the post-secondary educational institution. A student attending credit-bearing courses in a high school for the available hours of instruction is a full-time student. The board shall have complete discretion to determine the academic or vocational-technical credit to be awarded to the student.

Students who have completed the eleventh grade but who have not completed the graduation requirements set out by the board may take up to seven semester hours of credit at a post-secondary educational institution during the summer months when school is not in session. Upon successful completion of these summer courses, the students shall receive academic or vocational-technical credit toward the graduation requirements set out by the board. Successful completion of the course shall be determined by the post-secondary educational institution. The board shall have complete discretion to determine the academic credit to be awarded to the student for the summer courses.

The following factors shall be considered in the board's determination of whether a student will receive academic or vocational-technical credit toward the graduation requirements set out by the board for a course at a post-secondary educational institution:

- the course is taken from a public or accredited private post-secondary educational institution;

Policy 604.06: Instruction at a Post-Secondary Educational Institution

Status: ADOPTED

Original Adopted Date: 03/10/2022 | Last Reviewed Date: 03/10/2022

In accordance with this policy, students in grades nine through twelve may receive academic or career and technical education credits that count toward the graduation requirements set out by the board for courses successfully completed in post-secondary educational institutions. Students and parents or guardians shall be made aware of the post-secondary instructional opportunities as part of the development of each student's individual career and academic plan as required by law. The Superintendent or designee is responsible for developing the appropriate forms and procedures for implementing this policy and the following post-secondary educational opportunities:

Concurrent Enrollment

The board may, in its discretion, enter into a contractual agreement with a community college to provide courses for eligible students in grades nine through twelve when comparable courses are not offered by the school district. Notice of the availability of the concurrent enrollment program shall be included in the school district's registration handbook, and the handbook shall identify which courses, if successfully completed, generate post-secondary credit. Students shall not be charged tuition for concurrent enrollment courses and shall not be required to reimburse the school district for tuition if they do not successfully complete a course. Students or their parents or guardians may be required to pay a fee consistent with the school district's established textbook policy and other materials for the concurrent enrollment course to the extent permitted by law. Students or their parents or guardians may also be required to provide their own transportation to and from concurrent enrollment courses to the extent permitted by law. However, transportation shall be the responsibility of the school district for any contracted course that is used to meet school district accreditation requirements.

Students who successfully complete a concurrent enrollment course, as determined by the postsecondary institution, shall receive postsecondary credit in accordance with the institution's policies and high school credit that will be reflected on their high school transcript. The Superintendent or designee shall grant to a student who successfully completes a concurrent enrollment course a unit of high school graduation credit for every unit of high school level instruction successfully completed.

Post-Secondary Enrollment Option

Ninth and tenth grade students who have been identified by the school district as gifted and talented, and eligible eleventh and twelfth grade students, may utilize the Post-Secondary Enrollment Option ("PSEO") program. To qualify, a course must be a nonsectarian, credit-bearing course that leads to a degree, and in the areas of: mathematics, science, social sciences, humanities, career and technical education. A course is not eligible for PSEO if a comparable course is offered by the school district. In addition, courses at a community college with which the district has a concurrent enrollment agreement are not eligible for PSEO. Students shall not be charged for tuition, textbooks, materials, or fees related to a PSEO course with the exception of equipment that becomes the property of the student.

The school district shall reimburse the post-secondary institution for tuition and other expenses for each PSEO course up to \$250. Students who successfully complete a PSEO course, as determined by the postsecondary institution, shall receive postsecondary credit and high school credit. The Superintendent or designee shall grant to a student who successfully completes a PSEO course a unit of high school graduation credit for every unit of high school level instruction successfully completed.

Transportation to and from the postsecondary institution is the responsibility of the student or parent or legal guardian of the student enrolled in a PSEO course. Eligible students may take up to seven hours of post-secondary credit during the summer months and receive high school credit upon successful completion of a post-secondary course. However, the student or student's parent or legal guardian are responsible for all costs associated with courses taken during the summer.

Students who fail a PSEO course and fail to receive credit are required to reimburse the school district for all costs directly related to the course up to the \$250.00 reimbursement maximum. Prior to registering, students under the age of eighteen are required to have a parent or guardian sign a form indicating that the parent is responsible for the costs of the course should the student fail the course and fail to receive credit. Reimbursement waivers may be granted by the board if sufficient verification is provided to show that the student was unable to complete the course for reasons outside the student's control, including but not limited to physical incapacity, a death in the student's immediate family, or a move out of the school district.

If a student is unable to demonstrate proficiency or the school district or accredited nonpublic school determines

that the course unit completed by the student does not meet the school district's standards, the superintendent shall provide in writing to the student's parent or guardian the reason for the denial of credit.

SCHOOL CEREMONIES AND OBSERVANCES

The school district will continue school ceremonies and observances which have become a tradition and a custom of the education program. These include, but are not limited to, reciting the Pledge of Allegiance and observance of holidays, such as Christmas, Halloween and Easter, by programs and performances. Such ceremonies or observances shall have a secular purpose and shall not advocate or sponsor a particular religion.

Students who do not wish to participate in these activities may be silent during the ceremony or observance or receive permission from the principal to be excused from the ceremony for religious reasons in compliance with board policy.
