

Mr. Jace Ohlert

Syllabus

Study Skills

Students who have Individual Education Plans receive support during a structured study period. Individualized instruction is given to each student based on their individual educational goals. Progress on Individual goal areas is monitored and shared with the parents. General curriculum assignments are monitored and support is provided as needed.

Biology

Small group instruction based on the concepts taught in the General Biology classroom. Most of the same materials are used, but are presented in a more individualized manner.

Level 4 Math

Focus on personal finance with reinforcement activities using a variety of math skills based on the goals stated in the students Individual Education Plan.
