The 5th Annual Beyond the Blue recognition program for Bellevue High School graduates is tonight (Friday) at the Button Factory, lower level. Everyone is invited to attend as we celebrate the accomplishments and contributions of the individuals to the right (and the qualifications and criteria). I encourage anyone to nominate individuals meeting these qualifications for consideration for future years (as nominees not selected in one year remain on the list for future years).

[Ending the 2022-2023 School Year](#)

As the year was winding down over the last couple of weeks students were busy doing a lot of different things that enhanced and expanded their learning beyond the classroom walls (where I believe learning is crucial and a mandatory part of the school experience). 5th grade students canoeing for the “School of the Wild” experience (above), and 1st grade students at the Bellevue State Park and Butterfly Garden (below), along with a camping unit in school.
