Nancy Kieffer (Roling)
Plastics Unlimited Founder (Preston, Iowa)
1982 Graduate

Nancy, and her husband Terry, are successful entrepreneurs and innovators in the plastic manufacturing industry. Due to health constraints, the couple was forced from what they knew and grew up doing, farming, into an unknown livelihood during a time when "the world was not at your fingertips".

They purchased a used machine, and with their hard-working and persevering attitude, they have developed contracts with many large corporations, including the following companies:

- John Deere
- Bobcat
- Proctor and Gamble
- General Mills
- Oshkosh
- Alcoa and many more.

Nancy and her family have educated themselves by attending trade conventions and seminars and earned their first patent in 2008 for combining plastics and fiberglass. Currently, their sons operate the business, Plastics Unlimited, in Preston.

Nancy is also a proponent of "paying it forward" through many volunteering activities in the community, including advocating for the walking path in Preston.

BELIEVE IN THE BLUE

It is the policy of the Bellevue Community School District not to discriminate on the basis of race, color, creed, gender identity, marital status, sex, sexual orientation, national origin, religion, age, disability or socioeconomic status in its educational programs, services, or employment practices.
